

Overview

OCOS UK Token Introduction

OCOS UK is a digital token designed for the growing decentralized ecosystem, with applications in the metaverse, gaming, NFTs, and DeFi. It aims to create a secure, scalable, and user-friendly platform for both individual and institutional users. The token is developed following stringent legal and regulatory frameworks, ensuring full compliance with international standards

Token Name: OCOS UK

Token Symbol: OCOS

Token Logo:

Blockchain: Binance Smart Chain (BEP-20 standard)

Total Supply: 1,000,000,000 OCOS

Supply Distribution:

- Team and Advisors: 15% (150,000,000 OCOS)
These tokens will be locked for 12 months and gradually released over 24 months in quarterly tranches.
- Investors and Private Sale: 20% (200,000,000 OCOS)
50% of these tokens will be released immediately after the launch, and the remaining 50% will be unlocked after a 6-month vesting period.
- Community and Reward Programs: 25% (250,000,000 OCOS)
Allocated for airdrops, staking rewards, and other community engagement initiatives to encourage participation and adoption.
- Liquidity Reserve: 20% (200,000,000 OCOS)
Reserved for providing liquidity on centralized (CEX) and decentralized exchanges (DEX) to ensure market stability.
- Ecosystem Development Fund: 15% (150,000,000 OCOS)
Set aside for the ongoing development of the OCOS UK ecosystem, including partnerships, technical enhancements, and community-building activities.
- Burning Mechanism: 5% (50,000,000 OCOS)
A portion of the tokens will be periodically burned to reduce supply, supporting a deflationary model and enhancing long-term token value.

This distribution plan is designed to support balanced growth for OCOS UK and incentivize both community members and investors .

OCOS UK Token Listing Announcement

We are excited to announce that the OCOS UK token, developed on the Binance Smart Chain (BEP-20) standard, is now officially listed on the following popular decentralized exchanges (DEX):

1. PancakeSwap
2. ApeSwap
3. BakerySwap
4. BiSwap
5. MDEX

You can now trade OCOS UK tokens on these platforms, provide liquidity to earn rewards, and actively participate in our growing ecosystem. Visit the relevant exchange pages to buy, sell, or stake your OCOS UK tokens and take advantage of the benefits our platform offers.

PancakeSwap

A popular decentralized exchange operating on the Binance Smart Chain (BSC). It allows users to trade tokens with low fees and earn passive income by providing liquidity.

ApeSwap

A DEX running on both the BSC and Polygon networks. Users can trade tokens, provide liquidity, and stake the platform's native token, BANANA, to earn rewards.

BakerySwap

Another DEX on Binance Smart Chain, which also integrates NFTs and gaming elements. It offers low-cost token trading and liquidity provision options.

BiSwap

An innovative DEX on the Binance Smart Chain. It features a triple-reward system where users can earn by providing liquidity and engaging in various activities on the platform.

MDEX

A decentralized exchange supporting both Binance Smart Chain (BSC) and Ethereum networks. Users can trade a wide variety of tokens and earn rewards by providing liquidity.

OCOS UK Token Listing Announcement

CoinMarketCap and CoinGecko

We are proud to announce that OCOS UK token, developed on Binance Smart Chain (BEP-20), is now officially listed on the two most prestigious platforms in the cryptocurrency space: **CoinMarketCap** and **CoinGecko**.

Why Are CoinMarketCap and CoinGecko Important?

- **Global Visibility:** CoinMarketCap and CoinGecko are the most visited and trusted cryptocurrency data platforms in the world, reaching millions of investors daily. The listing of OCOS UK on these platforms ensures that our token gains maximum exposure, enabling global investors to easily track and access our project.
- **Market Trust:** Being listed on major platforms like CoinMarketCap and CoinGecko is a significant milestone for any token, as it signals trustworthiness and legitimacy. These listings boost investor confidence in the OCOS UK project and affirm its credibility within the crypto community.
- **Data Transparency:** Both CoinMarketCap and CoinGecko provide transparent data to users, including price tracking, trading volume, market capitalization, liquidity, and more. This means that the most accurate and up-to-date information about OCOS UK is readily available to a global audience.
- **Attracting New Investors:** Given the vast reach of these platforms, the OCOS UK listing offers an excellent opportunity to attract new investors. With increased visibility comes the potential for expanded adoption, driving growth for both the token and the overall project.

Conclusion

The listing of OCOS UK on CoinMarketCap and CoinGecko is not only a significant achievement but also a clear indication that the project is poised for greater success in the global market. These strategic listings provide a solid foundation for increased visibility and investor interest.

You can now stay up to date with the latest information about the project and track OCOS UK's performance on these platforms, ensuring you are always informed about the token's value and growth potential.

OCOS UK Token Utility and Use Cases

1. Governance and Voting

Token holders can participate in shaping the future of the OCOS UK ecosystem by voting on key strategic decisions within the platform.

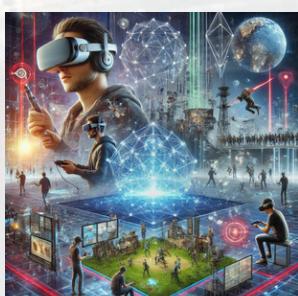

2. Staking and Rewards

OCOS UK token holders can stake their tokens for fixed periods to earn annual returns (APY). Short-term, mid-term, and long-term staking options are available.

3. Metaverse and Gaming Integration

OCOS UK integrates with metaverse platforms and gaming economies, allowing users to trade NFTs and use tokens for in-game purchases.

4. Decentralized Finance (DeFi) Applications

Token holders can participate in liquidity provision and engage in various financial activities within DeFi platforms.

OCOS UK Token Wallet Compatibility

OCOS UK tokens can be securely stored and managed on several popular cryptocurrency wallets, ensuring ease of use and accessibility for all users. The supported wallets include:

1. Trust Wallet

A widely-used decentralized wallet that allows users to securely store, send, and receive OCOS UK tokens. It offers seamless integration with decentralized exchanges and DApps.

2. Coinbase Wallet

Coinbase Wallet provides a user-friendly interface for managing OCOS UK tokens. It also supports token swaps and interaction with DeFi protocols.

3. MetaMask

MetaMask is a popular browser-based and mobile wallet that supports OCOS UK tokens on the Binance Smart Chain. Users can also connect MetaMask to decentralized exchanges like PancakeSwap for trading and liquidity provision.

4. Binance Chain Wallet

As OCOS UK is based on the Binance Smart Chain (BEP-20), Binance Chain Wallet offers native support for storing and managing OCOS UK tokens, making it an ideal option for users engaged in Binance's ecosystem.
